## MKK3/6 Blocking Peptide

| Catalog #                 | Source                                                                                                                                                                                                                 | Reactivity       | Applications |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|--------------|
| CBP3302                   | Synthetic                                                                                                                                                                                                              | H, M, R, B, P, Z | BL           |
| <b>Description</b>        | The peptide is used to block Anti-MKK3/6 Antibody (#CPA3302) reactivity.                                                                                                                                               |                  |              |
| <b>Form</b>               | Lyophilized powder                                                                                                                                                                                                     |                  |              |
| <b>Gene Symbol</b>        | MAP2K3; MAP2K6                                                                                                                                                                                                         |                  |              |
| <b>Alternative Names</b>  | MEK3; MKK3; PRKMK3; SKK2; Dual specificity mitogen-activated protein kinase kinase 3; MAP kinase kinase 3; MAPKK 3; MAPK/ERK kinase 3; MEK 3; Stress-activated protein kinase kinase 2; SAPK kinase 2; SAPKK-2; SAPKK2 |                  |              |
| <b>Entrez Gene</b>        | 5606 (Human); 26397 (Mouse)                                                                                                                                                                                            |                  |              |
| <b>SwissProt</b>          | P46734 (Human); O09110 (Mouse)                                                                                                                                                                                         |                  |              |
| <b>Purity</b>             | >85%                                                                                                                                                                                                                   |                  |              |
| <b>Quality Control</b>    | The quality of the peptide was evaluated by reversed-phase HPLC and by mass spectrometry.                                                                                                                              |                  |              |
| <b>Directions for Use</b> | Blocking Peptide to the diluted primary antibody in a molar ratio of 10:1 (peptide to antibody) and incubate the mixture at 4°C for overnight or at room temperature for 2 hours.                                      |                  |              |
| <b>Storage/Stability</b>  | Shipped at 4°C. Store at -20°C for one year.                                                                                                                                                                           |                  |              |

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish
