

## Biotin-Gastrin (1-17)

| Catalog #                 | Source                                                                                                                   | Reactivity | Applications |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------|------------|--------------|
| CCP2095                   | Synthetic                                                                                                                |            |              |
| <b>Description</b>        | Peptide to Biotin-Gastrin (1-17)                                                                                         |            |              |
| <b>Form</b>               | Lyophilized powder                                                                                                       |            |              |
| <b>CAS Number</b>         |                                                                                                                          |            |              |
| <b>Molecular Formula</b>  | C107H140N22O34S2                                                                                                         |            |              |
| <b>Molecular Weight</b>   | 2342.56                                                                                                                  |            |              |
| <b>Purity</b>             | > 95%                                                                                                                    |            |              |
| <b>Chemical Structure</b> | Biotin - Glu - Gly - Pro - Trp - Leu - Glu - Glu - Glu - Glu - Ala - Tyr - Gly - Trp - Met - Asp - Phe - NH <sub>2</sub> |            |              |
| <b>Storage/Stability</b>  | Shipped at 4°C. Store at -20°C for one year.                                                                             |            |              |
| <b>Structure</b>          |                                                                                                                          |            |              |

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish
