

## Product Data Sheet

## Boc-Cholecystokinin Octapeptide (desulfated)

| Catalog #          | Source    | Reactivity                                                | Applications |
|--------------------|-----------|-----------------------------------------------------------|--------------|
| CCP2129            | Synthetic |                                                           |              |
| Description        |           | Peptide to Boc-Cholecystokinin Octapeptide (desulfated)   |              |
| Form               |           | Lyophilized powder                                        |              |
| CAS Number         |           | 25687-34-7                                                |              |
| Molecular Formula  |           | C54H70N10O15S2                                            |              |
| Molecular Weight   |           | 1163.32                                                   |              |
| Purity             |           | > 95%                                                     |              |
| Chemical Structure |           | Boc - Asp - Tyr - Met - Gly - Trp - Met - Asp - Phe - NH2 |              |
| Storage/Stability  |           | Shipped at 4°C. Store at -20°C for one year.              |              |
| Structure          |           |                                                           |              |

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish
