

## gp140 (171-190) [Cys]

| Catalog #                 | Source                                                                                                                      | Reactivity | Applications |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------|------------|--------------|
| CCP2395                   | Synthetic                                                                                                                   |            |              |
| <b>Description</b>        | Peptide to gp140 (171-190) [Cys]                                                                                            |            |              |
| <b>Form</b>               | Lyophilized powder                                                                                                          |            |              |
| <b>CAS Number</b>         |                                                                                                                             |            |              |
| <b>Molecular Formula</b>  | C118H180N30O35S2                                                                                                            |            |              |
| <b>Molecular Weight</b>   | 2643.05                                                                                                                     |            |              |
| <b>Purity</b>             | > 95%                                                                                                                       |            |              |
| <b>Chemical Structure</b> | Lys - Phe - Thr - Met - Thr - Gly - Leu - Lys - Arg - Asp - Lys - Thr - Lys - Glu - Tyr - Asn - Glu - Thr - Trp - Tyr - Cys |            |              |
| <b>Storage/Stability</b>  | Shipped at 4°C. Store at -20°C for one year.                                                                                |            |              |
| <b>Structure</b>          |                                                                                                                             |            |              |

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish
