

## **Product Data Sheet**

## hsa-miR-551b-3p miRNA Inhibitor

| Catalog #      | Source     | Reactivity             | Applications   |         |
|----------------|------------|------------------------|--|---------|
| CIH0340        | Synthetic  | н                      |  |         |
| Description    | Synth      | etic miRNA inhibitor   | s are used to inhibit hsa-miR-551b-3p by transfact   | ion.    |
| Specificity    | miRN       | A Inhibitors are cher  | nically synthesized, complementary, antisense        |         |
|                | single     | e-stranded oligonucle  | eotides to their target, endogenous mature miRNA     | . It    |
|                | effect     | tively prevents the ta | rrget miRNA to bind to normal cellular binding site  | s.      |
|                | Trans      | fection of inhibitors  | followed by downstream gene expression analysis      | or      |
|                | phen       | otypic analysis, is pe | rformed to elucidate the targets and roles of partic | cular   |
|                | miRN       | As.                    |  |         |
| Form           | Lyopł      | nilized powder         |  |         |
| Gene Symbol    | hsa-n      | niR-551b-3p            |  |         |
| Accession No.  | . MIM/     | AT0003233              |  |         |
| Components     | This s     | synthetic miRNA is ba  | ased on the mature miRNA sequence. It does not c     | ontain  |
|                | the fu     | all precursor miRNA    | stem-loop.   |         |
| Directions for | Use We re  | ecommend re-susper     | nding the lyophilized synthetic miRNA using DNase    | and     |
|                | RNas       | e-free ddH2O. To ma    | ke a 100 uM stock, dissolve the lyophilized powde    | r using |
|                | 100 u      | ll of ddH2O.           |  |         |
| Storage/Stabi  | lity Shipp | ed at 4 °C. Store at - | 20 °C for one year. Avoid freeze-thaw cycles after   |         |
|                | recon      | stitution.             |  |         |

Application key: E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC-Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference Species reactivity key: H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb-Rabbit, S- Sheep, Z- Zebrafish
